COMPREHENSIVE PHOTOSHOP for PHOTOGRAPHERS
Solid Foundation Skills *plus* Layers & Masking

- - - WORKSHOP OVERVIEW - - -

Recapture the excitement you felt when you first clicked the shutter and were sure you had captured "the perfect shot". Photoshop is not difficult to learn, but with so many options and possibilities it can be overwhelming for many.

In this class we simplify the learning process by breaking Photoshop into major component parts, and then focusing on each piece, one step at a time. You will learn to rely on the "standard digital workflow model" as your roadmap all editing decisions. You learn which Photoshop commands are most useful and effective for editing your image files. You learn selection techniques that will allow you to make simple and complex selections, quickly and easily. And finally we will demystify Photoshop's layer and layer masking features so you can effortlessly edit your image files like never before.

COMPREHENSIVE PHOTOSHOP for PHOTOGRAPHERS offers the following:

- Small classes, individual attention
- Comprehensive class workbook containing valuable
   reference material
- Concise explanation of Photoshop's interface with
   emphasis on navigation
- Clear explanation of proven digital workflow
- Thorough instruction of Photoshop's key tools &
   commands
- Many practical examples for using layers and masking
   while editing
- Ample opportunity to practice techniques learned in class

> *"Wonderful way to learn Photoshop. Colleen's easy-going manner and willingness to help doesn't end until you learn Photoshop."*
>
> ~ Dick Landy

Who Should Attend?
Whether you are new to Photoshop, or you have tried it before but just not been able to master it, this class is for you. A solid image editing foundation is laid and numerous time-saving tips and tricks are taught. Most importantly, layer and layer masking features are presented in a very clear and concise manner allowing you to make significant progress on the path to mastery.

> *"A tremendous amount of good, useful information, that is well presented. The workbook is helpful and reassuring."*
>
> ~ Link Nicoll

Prerequisites
No previous Photoshop experience required, however a general comfort level with computers is necessary.

This class is a combination of my two most popular Photoshop classes:
PHOTOSHOP for PHOTOGRPAHERS & ADVANCED PHOTOSHOP for PHOTOGRAPHERS
